PROFILE

My name is Harsh Khandal, aka Hk Hacker — a student from India with a deep passion for cybersecurity and ethical hacking.

I'm a proud Bug Bounty Hunter 🐞 who thrives on breaking digital barriers, and I specialize in Tech. I love turning complex tech puzzles into real-world rewards — both in skill and money 💰. Beyond hacking, I'm money-minded, business-driven 💼, and always on the lookout for growth in both tech and finance.

I'm constantly evolving, learning, and building — on a mission to master both the digital world and the financial game. 🚀
